

Before Your Drive Test, your car must pass the following checklist:

- ▶ **License Plate** - Must have valid license plate.
- ▶ **Lights** - Must have working brakes/turn signals, including the third brake lights (cars since 1986, trucks since 1994). No lens may be covered in any way by tape of any kind, colored or clear.
- ▶ **Windshield** - Cannot have multiple cracks or other damage. Tint must meet Title 47. No tint is permitted more than 5 inches from the windshield or below the AS-1 line located on windshield.
- ▶ **Tires** - Must have a minimum tread depth $2/32$ ", no ply or cord exposed in the tread. No bulges/bumps. Use the penny test to check depth.
- ▶ **Horn** - Must be audible at 200 feet.
- ▶ **Muffler** - Cannot be modified from original factory vehicle noise level.
- ▶ **Brakes** - Must be in proper working order.
- ▶ **Front door handles** - Must operate from both inside and outside with normal effort.
- ▶ **Seatbelts** - Must be in proper working order.
- ▶ **Mirrors** - Must have left outside AND either center inside or right outside mirrors.

You also must have a current insurance verification form, which can not exclude the driver.
